

## MANAGE

### Ivanti Neurons for Edge Intelligence

#### Short Description

Query all your devices and get real-time operational awareness.

#### Medium Description

Query all edge devices using natural language processing (NLP) and get real-time intelligence across the enterprise in seconds. It provides quick operational awareness, real-time inventory, and security configurations across the edge leveraging sensor-based architecture.

Product	Description	SKU
Ivanti Neurons for Edge Intelligence	Give IT the ability to query all edge devices	TBD

#### What Does it Do?

- Delivers real-time intelligence for edge devices with a sensor-based architecture
- Provides insight into operational awareness, real-time inventory and security configurations
- Improves accuracy of service data, with AI and machine learning

#### What are the Target Business Outcomes?

- Spend less time reconciling data and improve response times with immediate action
- Increase confidence in the accuracy of your service data
